Down On My Knees

Artizan Music (Download only)

'Down On My Knees' really starts to move once the tracky intro is seduced by the swingy male vocal sample and ultimately caressed by whispering keys over the steady but thumping beats. The beats are bigger, brasher and bolder on 'Harmony' and please hold out for the robust bass that rumbles under funky echoing keys, plonking notes and chopped-up male vocals. 'Bounce And Flow' is one dirty slab of underground techy house etched in funk and rounds this biatch off wonderfully.
